

WV's Partnership to Promote Community Well-Being

February 3-4, 2004
Retreat Agenda

Retreat Purpose

To discuss what policies, processes and products the Partnership will need to develop in order to function as WV's prevention and intervention planning body as they fulfill the following responsibilities:

1. Develop a comprehensive statewide plan for the improvement of the prevention system;
2. Coordinate planning with other interrelated systems;
3. Establish priorities for the improvement of the substance abuse prevention system;
4. Identify and leverage prevention funding to fill needs and gaps in service;
5. Advise the subgranting of funds from any federal agency or any other source.

Retreat Goals

- To gain an understanding of WV's current prevention system including all the players and their roles.
- To gain an understanding of what role each Partnership member, their organization and program(s) have to play in the work of the Partnership.
- To gain an understanding of what WV (state prevention system and communities) would look like if the Partnership were completely successful.
- To agree on a process to get started on the work.
